### DETAILED ACTION

1. This is the second Office action on the merits of Application No. 10/526,777, filed 29 July 2005. Claims 1-7 are pending.

### Documents

2. The following documents have been received and filed as part of the patent application:
  - Information Disclosure Statement, received on 03/08/05
  - Declaration and Power of Attorney, received on 07/29/05
  - Copy of the Certified Copy of Foreign Priority Document, received on 03/08/05

### *Claim Rejections - 35 USC § 102*

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. **Claims 1-7 are rejected under 35 U.S.C. 102(b) as being anticipated by WO 01/92049 A1 (WO'049).**

#### Claims 1-7:

WO'049 (Figs. 1-2; pages 1-9) discloses a gearbox (i.e., Fig. 2, element 9) comprising:

- An unsynchronized basic gearbox (i.e., Fig. 2, being combination of elements 15, 17-26, 28-30, and 41-43);

- A synchronized split gear section (i.e., Fig. 2, being combination of elements 12-17 and 40);
- A synchronized range section (i.e., Fig. 2, vicinity of element 32);
- An electronic control unit (i.e., Fig. 1, element 45);
- An electronic gear selector (i.e., Fig. 1, element 46);
- Wherein the control unit controls engagement and disengagement of the gearbox (i.e., page 5, line 17 – page 7, line 3);
- Wherein the control unit is arranged so as, when input signals indicating that neutral position is selected are received, to put the at least one of the synchronized split gear section and range section in neutral position (i.e., page 5, line 16 – page 6, line 27);
- Wherein the control unit is arranged so as in the basic gearbox, a previous selected gear engaged while the neutral position of the auxiliary gear occupied (i.e., page 5, line 16 – page 6, line 27);
- Wherein the control unit is arranged to engage a stage of the at least one synchronized auxiliary gear when all unsynchronized gears of the basic gearbox are in the basic gearbox neutral position and an engine with which the gearbox is associated stops (i.e., page 5, line 16 – page 6, line 27).

***Response to Arguments***

5. Applicant's arguments filed on 15 January 2007 have been fully considered but they are not persuasive.

Art Unit: 3681

Applicants argue that the WO'049 reference does not disclose or suggest putting at least one synchronized auxiliary gear in a neutral position when a control unit receives driver shift input to put all unsynchronized gears of the basic gearbox in a basic gearbox neutral position.

Examiner respectfully disagrees because, as disclosed in WO'049, i.e., page 5, lines 16 – page 6, line 9, the driver shift input includes the throttle pedal position, which provides zero throttle indication. The control unit 45, after receiving such zero throttle indication, gives a signal to the servo device 40 to put the synchronized gear in a neutral position, which, in turn, puts all unsynchronized gears of the basic gearbox in a basic gearbox neutral position.

Accordingly, as set forth above, the WO'049 reference meets the claimed limitations.

### ***Conclusion***

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

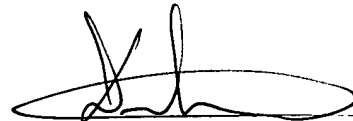

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
